Satellite images show scale of destruction across Gaza

Israel's Gaza offensive, launched after Hamas's October 7, 2023 attack, has destroyed or damaged around 193,000 buildings, according to a UN Satellite Centre analysis.

[6/12] A satellite image shows the port of Gaza during the war, August 25, 2025. The U.N. human rights office has expressed grave concern about the level of destruction in Gaza City, the enclave's main urban centre, and said any deliberate effort to relocate the population would be tantamount to ethnic cleansing.
